## Looking Backward Twenty Six Years

A guy from the east, in sending a letter back home this week, got this out of his system, much to the enjoyment, probably, of the tender-foot back there. "Last night I strolled from my shack on Toughnut street to the Bird Cage theatre, where I passed an hour watching the "humandly" and other "variety" acts, and then dropped into the Bucket of Blood and had a "cowboy's delight" after which I went to the Can Can restaurant and had a square meal on a round table. Picking up a copy of the Tombstone Epitaph I read that the Lucky Cuss, Ground Hog, Crucifixion and Resurrection mining claims were located in this district—well I guess Tombstone has enough of that odd, which will amuse you "Yanks" for some time to come. Yet with all these odd names this town of Tombstone is without doubt unsurpassed as a health-seekers paradise, and as shocking as the name is, will some day be a town crowded with health seekers. Out here no one dies except he is shot or kicked to death by a burro. As for old age, I saw three elderly women, none under ninety, dancing the Boston Glide and the Long Branch at the Firemen's ball last week. They don't die out here unless it's with their boots on—they dry up and blow away—a sort of windy cremation.

He flared in at the wave of her hand, And tenderly pressed his suit; But all of a sudden he flamed out On the wave of her father's boot. Winter has again taken a rest in the lap of spring. Don't take your winter shirt off until the first of June. Barney Riggs was at last report in San Diego and doing well. Mrs C Granville Johnson has gone to California, summoned thither by news of the serious illness of her mother.

James Goyle, ex Chief of Police, came up from Tucson today. Col Hafford received 26 new birds and will build a brand new eagle today.

Sheriff Slaughter leaves today for Yuma with four prisoners. L W Blinn and John W Dunbar have entered into a new paper controversy. We gave Blinn credit for better sense than to notice this "what is it."

The ice war is now on and we are getting ice very cheap. One company has cut to two cents a pound and the other followed with the announcement that they would actually be giving it away—that at their prices no one should be without ice—at one and three-fourths cents a pound. This is a cold war between the two ice companies, but if they keep it up and get hot under their collars it will melt in price, much to the satisfaction of the brated customer.

A most delightful card party was held last night at the home of Mrs E A Shattuck on Fourth St.

G H Kelly, a representative of the Tucson Star, came in yesterday and will remain a few days so as to cool off. He admitted, on cross examination, that Hades was any hotter than Tucson this week, then he was going to get a ticket elsewhere when the time came.

The Supreme Court at Washington yesterday rendered an opinion affirming the constitutionality of the Edmunds-Tucker-Idaho test oath, intended to keep the Mormons from voting.

A rumor comes from 'Frisco that the Contention mine is to start her pumps and levy a tribute on the other mines benefited thereby.

Rumor says that the Emerald will close down shortly.

The St Louis Globe Democrat calls John Dunbar of Phoenix "a gifted prevaricator."

The county cash box was opened today by Treasurer McAllister and all the coins found to be "present."

Mexico wants to trade Lower California for Arizona. This piece of information on top of the endeavor of Crook to saddle the Apaches on us ought to create the long looked for boom.

Some-one started the story last night that the cave at the Copper Queen had entombed 35 men—nothing to it but warm coons.

Nellie Bly has won the distinction of being the most rapid young person in existence. What next?

The Chicago Tribune gives the total lynchings in the U S for last year as 175 and not one is credited to the territory of Arizona. Ah there, you eastern goody goodies.

Cop. # 1415, lead 3.82, silver 97 1.8.

Mrs Harriett Beecher Stowe, author of Uncle Tom's Cabin, is much improved in health. She is neither an imbecile nor insane, as has been stated, but has reached the stage of second childhood.

Arizona ranks second to Montana in Copper output.

B A Packard has gone to California with 200 head of fine Sonora cattle.

Range of thermometer yesterday, 48 to 58.

G S Fly has finished the pictures of the skull of Alfred Richards, showing the effect of the blow of the murderer.

One hundred and seventy people, filling 12 coaches, passed through Benson yesterday. It was Madam Patti and her company enroute from Mexico City to Frisco.

Our newly appointed Postmaster, W A Harwood, will soon take the office as his bond has gone to Washington.

Mr A L Grow will, it is said, receive the appointment of Census Enumerator for Cochise county—an excellent appointment it is, too.

A claim against the government is like a life in urance. You die before you derive any benefit from it. The hundred dollars allowed Andy Ames for a horse stolen by the Apaches would have been handy seven years ago when he lived on this earth. This instance should serve as an incentive to the committee on claims at Washington to issue endowment policies to residents of Arizona on their cattle and horses, in case Geronimo shall be returned to Arizona.

Judge Sloan came in on the noon stage and opened court one hour later.

Governor Murphy is offering \$500 reward for the detection of the murderer of Alfred Richards.

The roll of honor in our school's show Alvin Howe 92, Rezie Hattich 91 in the first grade; in the second grade, Laura Crable 94, George Swain 93; in the third grade, Francisco and Angelita April 99, Esther Critchley 98, and Maggie Holland 91.

A justice recently held that corn was fuel. We agree with him if he means when it is made into booze.

A South Carolina man embezzled \$40 and was sent up for 12 years; an Ohio man embezzled \$6,000 and got 5 years; an Arizona man embezzled \$25,000 and almost got smothered by the congratulations of his friends.

It cost the county \$700 to take care of the smallpox epidemic in Benson a few weeks ago.

Arizona is called the "Italy of America," but when we are admitted into the Union we are not going to change our name to macaroni.

Mrs Adamson, of the Cochise hotel, will go to the Guaymas Carnival.

A bill has been introduced in Congress, having for its object, the purifying of elections in Arizona. Nothing is said about fumigating the candidates.

R C Kettellwell has pulled up stakes and will make his headquarters in Nogales after this.

## Full Particulars Not Yet Known

No particulars have as yet been received of the decision of the United States Supreme court in the bond case against the Tombstone Consolidated Mines Company and it is thought it will be at least several days before the complete particulars are had.

In the meantime, however, the future of Tombstone has a brighter aspect than ever, but pending the full report from Washington, anxious Tombstonites, and those who are seriously interested, will have to sit back and wait, but no doubt with the assurance that everything will be "O. K."

Some-one started the story last night that the cave at the Copper Queen had entombed 35 men—nothing to it but warm coons.

## From Monday's Daily.

The San Simon Artesian Belt published at San Simon, Cochise county, has issued a Homeowner's Edition that is certainly a credit to its editor, Renwick White. The edition is profusely illustrated, containing some well written articles, and is replete with information concerning the valley, and Cochise county and Arizona in general. Success to you, Brother White.
